WHAT TO EXPECT

An ISVA or ChISVA will listen to you and help you understand your choices. An ISVA can provide independent emotional and practical support.

The core role of the ISVA or ChISVA is to make sure you have accurate information to make informed decisions that best fit with your circumstances.

An ISVA or ChISVA will make you aware of what additional support is available to you. We can also help you through the process of reporting to police if you choose to do so.

YOUR INDEPENDENT SEXUAL VIOLENCE ADVISOR IS...

WE WILL SUPPORT YOU WHETHER YOU HAVE REPORTED TO THE POLICE OR NOT

If you choose to take up ISVA support you have the choice to make them the single point of contact, so you can have just the one contact instead of having to tell everyone what has happened to you.

- Your well-being and recovery is the most important thing to us
